Packed with practical teaching strategies, *Making Every Lesson Count* bridges the gap between research findings and classroom practice. Shaun Allison and Andy Tharby examine the evidence behind what makes great teaching and explore how to implement this in the classroom to make a difference to learning. They distil teaching and learning down into six core principles - challenge, explanation, modelling, practice, feedback and questioning - and show how these can inspire an ethos of excellence and growth, not only in individual classrooms but across a whole school too.

Combining robust evidence from a range of fields with the practical wisdom of experienced, effective classroom teachers, the book is a complete toolkit of strategies that teachers can use every lesson to make that lesson count. There are no gimmicky ideas here - just high impact, focused teaching that results in great learning, every lesson, every day. To demonstrate how attainable this is, the book contains a number of case studies from a number of professionals who are successfully embedding a culture of excellence and growth in their schools. *Making Every Lesson Count* offers an evidence-informed alternative to restrictive Ofsted-driven definitions of great teaching, empowering teachers to deliver great lessons and celebrate high-quality practice. Suitable for all teachers - including trainee teachers, NQTs, and experienced teachers - who want quick and easy ways to enhance their practice and make every lesson count.

Based on the findings of a commission chaired by James Mirrlees, this volume presents a coherent picture of tax reform whose aim is to identify the characteristics of a good tax system for any open developed economy, assess the extent to which the UK tax system conforms to these ideals, and recommend how it might be reformed in that direction.

This guide is a practical tool for those involved in national legislative processes and in the design of labour laws, including government officials and representatives of workers' and employers' organisations. At the 100th International Labour Conference in June 2011, the ILO adopted Convention No. 189 and Recommendation No. 201 on decent work for domestic workers. Because domestic workers are often excluded from the protection of labour laws or are treated less favourably than other wage workers, implementing the basic principles embodied in Convention No. 189 calls for an assessment and strengthening of national labour laws. With the Convention No. 189 as its underlying framework, this volume provides specific guidelines and complements these with examples drawn from a wide range of existing national labour laws concerning domestic workers. The guide's first part

discusses alternative approaches to regulating domestic work, the nature and characteristics of domestic work, the forms of employment relationships that may exist, and their implications for regulation. Subsequent chapters focus on substantive areas of regulation, namely formalizing the employment relationship, working time, remuneration, fundamental principles and rights at work, protection from abuse and harassment, and protection of migrant domestic workers and child domestic workers.

Chinua Achebe's novels and essays have always drawn our attention to issues of memory, the story, history and our own obligation to history as Africans. Achebe constantly goes back to the authority of narrative - the story; and as the subsequent generations of African writers like Chimamanda Adichie keep returning to, to celebrate Africa's many stories, its moments of failure and triumph. Achebe, more than any other writer on this continent, has inspired many, and hopefully the African story tellers of the coming centuries, irrespective of their location will continue to be inspired by him. This collection of essays is an enduring tribute to this rich legacy of Achebe.

When we think about trauma and PTSD we tend to think about war and conflict. But around a third of women feel some part of their birth was traumatic. This experience can impact on their mental and physical health, their relationships and future plans. In *Why Birth Trauma Matters*, Dr Emma Svanberg, clinical psychologist and co-founder of *Make Birth Better*, explores what happens to those who go through a bad birth. She

explains in detail how birth trauma occurs, examines the wide-ranging impact on all of those involved in birth, and looks at treatments and techniques to aid recovery. By drawing on her own research and the work of experts in the field, and sharing the first-hand experiences of women, she shows how it is possible to begin to move on.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when •

coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*
