Actors must take meetings to advance their careers. Seeking representation, management, auditions, or work in specific projects, they meet with agents, managers, producers, and casting directors. However, these important meetings are often unsuccessful because the actors present themselves inadequately. Lacking self-awareness and authenticity, actors frequently conduct themselves as victims or manipulators, which leads to their being seen as undesirable working partners, regardless of their acting abilities and credits. This is the first book to address the actor's self-presentation at an interview or meeting. It shows the actor how to be the host of a meeting and the initiator of an exciting experience that may lead to offers of representation, auditions, and project participation. In this book, actors will learn startling, myth-busting truths: They will learn that they will "blow it" if interviewers look at their resumes during meetings or if they answer questions with prepared riffs about themselves or if they are on their best behaviour! Most importantly, they will learn how applying Stephen Book's practical teachings can bring about remarkable transformations of their meeting skills.

A new edition of the classic book for actors starting their careers, with new material Few actors have ever been more eloquent, more honest, or more entertaining about their life and their profession than Simon Callow, one of the finest actors of his time and increasingly one of the most admired writers about the theater. Beginning with the letter to Laurence Olivier that produced his first theatrical job to his triumph as Mozart in the original production of *Amadeus*, Callow takes us with him on his progress through England's rich and demanding theater: his training at London's famed Drama Centre, his grim and glorious apprenticeship in the provincial theater, his breakthrough at the Joint Stock Company, and then success at Olivier's National Theatre are among the way stations. Callow provides a guide not only to the actor's profession but also to the intricacies of his art, from unemployment—"the primeval slime from which all actors emerge and to which, inevitably, they return"—to the last night of a long run.
