Family and Parenting Support Headline

This book presents original research examining parents' perspectives on the structure, content and delivery of parenting programmes. It explores how parents have personally been impacted by attending such a programme and finally whether or not this might be affecting their child. Utilising an innovative mixed

methods research approach, based around a critical realist philosophy, the author follows 136 families through one of three parenting programmes and beyond. In doing so, she provides important new insights regarding the efficacy of the parenting programmes, demonstrating a real-world application of the transplant model of parent-professional practice in action. This book provides a valuable new resource for students and scholars working in the psychology of education, education, childhood studies, and across the social sciences more broadly. It will also be of

interest to policymakers and professionals involved in the development and implementation of parenting programmes.

Consequence Henry Holt and Company Play therapy is the oldest and most popular form of child therapy in clinical practice and is widely considered by practitioners to be uniquely responsive to children's developmental needs. This book describes a range of play interventions that feature flexibility in service delivery and across settings, child populations and age groups.

Dumbing Us Down Psychology Press

Children are the foundation of the United States, and supporting them is a key component of building a successful future. However, millions of children face health inequities that compromise their development, well-being, and long-term outcomes, despite substantial scientific evidence about how those adversities contribute to poor health. Advancements in neurobiological and socio-behavioral science show that critical biological systems develop in the prenatal through early childhood periods, and neurobiological development is extremely responsive to environmental influences during these stages. Consequently, social, economic, cultural, and environmental factors significantly affect a child's health ecosystem and ability to thrive throughout adulthood. *Vibrant and Healthy Kids: Aligning Science, Practice, and Policy to Advance Health Equity* builds upon and updates research from *Communities in Action: Pathways to Health Equity* (2017) and *From Neurons to Neighborhoods: The Science of Early Childhood Development* (2000). This report provides a brief overview of stressors that affect childhood development and health, a framework for

applying current brain and development science to the real world, a roadmap for implementing tailored interventions, and recommendations about improving systems to better align with our understanding of the significant impact of health equity.

The Year of Small Things Ballantine Books

Growing up, Gwen and Iris were the best of friends, even if they couldn't have been more different. Now Gwen is living her hometown dream, or so she reminds herself while juggling endless parenting drama, an unemployed husband, and a neighborhood pyramid scheme. Never mind that at age thirty-nine, her social circle still resembles middle school. Her life is everything she ever wanted it to be, but nothing like she had planned. Iris was never destined for the ordinary. When she moved to Manhattan, she shed her old life for a better one-but not without a cost.

From a distance, Iris's life couldn't be more charmed, but no one knows about the cracks in the image she's worked so hard to cultivate. No one knows the real Iris at all. Except for Gwen. But Iris and Gwen haven't spoken for years. Until... When Iris's past catches up with her, she turns to the one person she could always count on-but she isn't the only one keeping secrets, and as Gwen scrambles to preserve an illusion of domestic bliss, she finds herself wondering when they went from telling each other everything to sharing nothing. Now, a little wiser, and most certainly a little older, Gwen and Iris discover that the truest of friends accept you just as you are, and that loving yourself is sometimes the best way to find happiness.

The Leader in Me Simon and Schuster
In this blazingly smart and voracious debut novel, an artist turned stay-at-home mom becomes convinced she's turning into a dog. • "A must-read for anyone who can't get enough of the ever-blurring line between the psychological and supernatural that Yellowjackets exemplifies." —Vulture One day, the mother was a mother, but then one night, she was quite suddenly something else... An ambitious mother puts her art career on hold to stay at home with her newborn son, but the experience does not match

her imagination. Two years later, she steps into the bathroom for a break from her toddler's demands, only to discover a dense patch of hair on the back of her neck. In the mirror, her canines suddenly look sharper than she remembers. Her husband, who travels for work five days a week, casually dismisses her fears from faraway hotel rooms. As the mother's symptoms intensify, and her temptation to give in to her new dog impulses peak, she struggles to keep her alter-canine-identity secret. Seeking a cure at the library, she discovers the mysterious academic tome which becomes her bible, *A Field Guide to Magical Women: A Mythical Ethnography*, and meets a group of mommies involved in a multilevel-marketing scheme who may also be more than what they seem. An outrageously original novel of ideas about art, power, and womanhood wrapped in a satirical fairy tale, *Nightbitch* will make you want to howl in laughter and recognition. And you should. You should howl as much as you want.

Parenting Programmes: What the Parents Say National Academies Press School Social Work: An Evidence-Informed Framework for Practice offers school social work students and veteran practitioners a new framework for choosing their interventions based on the best available evidence. It is the first work that synthesizes the evidence-based practice (EBP) process with recent conceptual frameworks of school social work clinical practice offered by leading scholars and policymakers. Many other books on EBP try to fit empirically validated treatments into practice contexts without considering the multiple barriers to implementing evidence-based practices in places as complicated and multi-faceted as schools. Additionally, there are vital questions in the literature about what the best levels for intervention are in school social work. Responding to the complexity of applying EBP in schools, this volume offers a

conceptual framework that addresses the real-world concerns of practitioners as they work to provide the best services to their school clients. For each domain of school social work practice, the authors critically review interventions, presenting the current research with guidelines for addressing such implementation issues as cost, school culture, adaptations for special populations, and negotiating multiple arenas of practice. In addition, the chapters are grounded in the process of evidence-based practice, illustrating how school practitioners can pose useful questions, search for relevant evidence, appraise the evidence, apply it in keeping with client values, and monitor the results. Written by four school social work scholars with over four decades of theoretical, research, and practice experience, this volume will be relevant to both research faculty studying school social work interventions and students learning about school social work practice.

distinctive contributions of a set of exemplary programs in terms of their foundational theory, design, delivery mechanisms, performance, and unique opportunities for future research. WINNER WINNER OF THE LOS ANGELES TIMES BOOK PRIZE Haunting, harrowing, and profoundly affecting, *Shot in the Heart* exposes and explores a dark vein of American life that most of us would rather ignore. It is a book that will leave no reader unchanged. Gary Gilmore, the infamous murderer immortalized by Norman Mailer in *The Executioner's Song*, campaigned for his own death and was executed by firing squad in 1977. Writer Mikal Gilmore is his younger brother. In *Shot in the Heart*, he tells the stunning story of their wildly dysfunctional family: their mother, a black sheep daughter of unforgiving Mormon farmers; their father, a drunk, thief, and con man. It was a family destroyed by a multigenerational history of child abuse, alcoholism, crime, adultery, and murder. Mikal, burdened with the guilt of being his father's favorite and the shame of being Gary's brother, gracefully and painfully relates a murder tale "from inside the house where murder is born... a house that, in some ways, [he has] never been able to leave." *Shot in the Heart* is the history of an American family inextricably tied up with violence, and the story of how the children of this family

committed murder and murdered themselves in payment for a long lineage of ruin.

Empirically Based Play Interventions for Children New Society Publishers

When Sarah and Tom Arthur were appointed to a suburban church after three years in an urban Christian community, they faced a unique challenge: how to translate the practices of "radical" faith into their new context. Together with their friends and fellow church members Erin and Dave Wasinger, the Arthurs embarked on a yearlong experiment to implement twelve small practices of radical faith--not waiting until they were out of debt or the kids were out of diapers or God sent them elsewhere, but right now. This book is Sarah and Erin's story, told with humor, theological reflection, and practical insight, exploring such practices as simplicity, hospitality, accountability, sustainability, and social justice--but, most of all, discernment. Along the way readers will consider how God might be calling them to embark on their own year of small but radical changes, right where God has planted them. Each chapter includes discussion

questions and suggested readings.

A man questions everything--his faith, his morality, his country--as he recounts his experience as an interrogator in Iraq; an unprecedented memoir and "an act of incredible bravery" (Phil Klay)
"Remarkable... Both an agonized confession and a chilling expose of one of the darkest interludes of the War on Terror. Only this kind of courage and honesty can bring America back to the democratic values that we are so rightfully proud of." --Sebastian Junger
Consequence is the story of Eric Fair, a kid who grew up in the shadows of crumbling Bethlehem Steel plants nurturing a strong faith and a belief that he was called to serve his country. It is a story of a man who chases his own demons from Egypt, where he served as an Army translator, to a detention center in Iraq, to seminary at Princeton, and eventually, to a heart transplant ward at the University of

Pennsylvania. In 2004, after several months as an interrogator with a private contractor in Iraq, Eric Fair's nightmares take new forms: first, there had been the shrinking dreams; now the liquid dreams begin. By the time he leaves Iraq after that first deployment (he will return), Fair will have participated in or witnessed a variety of aggressive interrogation techniques including sleep deprivation, stress positions, diet manipulation, exposure, and isolation. Years later, his health and marriage crumbling, haunted by the role he played in what we now know as "enhanced interrogation," it is Fair's desire to speak out that becomes a key to his survival. Spare and haunting, Eric Fair's memoir is both a brave, unrelenting confession and a book that questions the very depths of who he, and we as a country, have become.

"After years of debate and inquiry, the key to a great marriage remained shrouded in mystery. Until now..."—Carol Dweck, author of *Mindset: The New Psychology of Success*
Eli J. Finkel's insightful and ground-breaking investigation of marriage clearly shows that the best marriages today are better than the best marriages of earlier eras. Indeed, they are the best marriages the world has ever known. He presents his findings here for the first time in this lucid, inspiring guide to modern marital bliss. The All-or-Nothing Marriage reverse engineers fulfilling marriages—from the "traditional" to the

utterly nontraditional—and shows how any marriage can be better. The primary function of marriage from 1620 to 1850 was food, shelter, and protection from violence; from 1850 to 1965, the purpose revolved around love and companionship. But today, a new kind of marriage has emerged, one oriented toward self-discover, self-esteem, and personal growth. Finkel combines cutting-edge scientific research with practical advice; he considers paths to better communication and responsiveness; he offers guidance on when to recalibrate our expectations; and he even introduces a set of must-try “lovehacks.” This is a book for the newlywed to the empty nester, for those thinking about getting married or remarried, and for anyone looking for illuminating advice that will make a real difference to getting the most out of marriage today.

For readers of *Battle Hymn of the Tiger Mother* and *Bringing Up Bebe*, a mother’s unflinching memoir about helping her seven year-old daughter lose weight, and the challenges of modern parenting. When a doctor pronounced Dara-Lynn Weiss’s daughter Bea obese at age seven, the mother of two knew she had to take action. But how could a woman with her own food and body issues—not to mention spotty eating habits—successfully parent a

little girl around the issue of obesity? In this much-anticipated, controversial memoir, Dara-Lynn Weiss chronicles the struggle and journey to get Bea healthy. In describing their process—complete with frustrations, self-recriminations, dark humor, and some surprising strategies—Weiss reveals the hypocrisy inherent in the debates over many cultural hot-button issues: from processed snacks, organic foods, and school lunches to dieting, eating disorders, parenting methods, discipline, and kids’ self-esteem. Compounding the challenge were eating environments—from school to restaurants to birthday parties—that set Bea up to fail, and unwelcome judgments from fellow parents. Childhood obesity, Weiss discovered, is a crucible not just for the child but also for parents. She was criticized as readily for enabling Bea’s condition as she was for enforcing the rigid limits necessary to address it. Never before had Weiss been made to feel so wrong for trying to do the right thing. The damned if you do/damned if you don’t predicament came into sharp relief when Weiss raised some of these issues in a *Vogue* article. Critics came out in full

force, and Weiss unwittingly found herself at the center of an emotional and highly charged debate on childhood obesity. A touching and relatable story of loving a child enough to be unpopular, *The Heavy* will leave readers applauding Weiss’s success, her bravery, and her unconditional love for her daughter. Advance praise for *The Heavy* “Have you ever been ‘that mother’? You know, the one who others criticize or question? If so, then you know what incredible courage and daring it can take to raise a child in a way that doesn’t always meet other people’s expectations. Dara-Lynn Weiss is inspirational for her sheer will, her unwavering dedication, and her willingness to take accountability for her own actions. *The Heavy* is a stark look at imperfect parenting—and why our mistakes make us better parents.”—Christine Carter, author of *Raising Happiness* “Dara-Lynn Weiss had to defy her child’s school, the judgments of other parents, and our fast food culture to rescue her daughter from the epidemic of obesity. Parents should see this as an inspiration—and a wake-up call.”—Amy Dickinson, “Ask Amy” advice columnist

and author of *The Mighty Queens of Freeville* “The Heavy should be required reading for every parent because it tackles—with refreshing honesty—that

universal question we’ll all face: how to do what’s best for our children, even when the kids resist our efforts and society judges our approach. Dara-Lynn Weiss has

written a brave book and started a crucial and overdue national conversation.”—Abigail Pogrebin, author of *One and the Same* and *Stars of David*
