Taylor & Francis  
Public Policies in Media  
and Information Literacy  
in Europe explores the  
current tensions in  
European countries as  
they attempt to tackle the  
transition to the digital  
age, providing a  
comparative and cross-  
cultural analysis of Media  
and Information Literacy  
(MIL) across Europe. This  
book takes a long-term  
perspective over the  
development of media  
education in Europe, and  
includes an appraisal of  
media, information,  
computer and digital  
literacies as they coalesce  
and diverge in the public  
debate over twenty-first-  
century skills. The  
contributors assess the  
various definitions of  
media and information  
literacy as a composite  
notion whose evolution as

a cross-cultural  
phenomenon reveals  
various trends and  
influences in Europe.  
Throughout, this volume  
offers an in-depth  
coverage of MIL with all  
the different dimensions  
of policy-making, from  
legal frameworks to  
training, funding,  
evaluation and good  
practices. The authors  
propose modeling current  
MIL governance trends in  
Europe and conclude with  
a call for alternative and  
collective frames of  
research that they hope  
will influence policy-  
makers and other  
stakeholders, especially in  
terms of MIL governance.  
This collection is ideal for  
students and researchers  
of MIL, as well as policy  
makers, educators and  
associations interested in  
MIL in the digital age.

"Lead Yourself First makes  
a compelling argument for  
the integral relationship

between solitude and  
leadership." --The Wall  
Street Journal Throughout  
history, leaders have used  
solitude as a matter of  
course. Martin Luther King  
found moral courage  
while sitting alone at his  
kitchen table one night  
during the Montgomery  
bus boycott. Jane Goodall  
used her intuition in the  
jungles of central Africa  
while learning how to  
approach chimps. Solitude  
is a state of mind, a space  
where you can focus on  
your own thoughts  
without distraction, with a  
power to bring mind and  
soul together in clear-  
eyed conviction. But these  
days, handheld devices  
and other media leave us  
awash with the thoughts  
of others. We are losing  
solitude without even  
realizing it. To find  
solitude today, a leader  
must make a conscious  
effort. This book explains  
why the effort is  
worthwhile and how to  
make it. Through gripping  
historical accounts and  
firsthand interviews with a

wide range of contemporary leaders, Raymond Kethledge (a federal court of appeals judge) and Michael Erwin (a West Pointer and three-tour combat veteran) show how solitude can enhance clarity, spur creativity, sustain emotional balance, and generate the moral courage necessary to overcome adversity and criticism. Anyone who leads anyone—including oneself—can benefit from solitude. With a foreword by Jim Collins (author of the bestseller *Good to Great*), *Lead Yourself First* is a rallying cry to reclaim solitude—and all the benefits, both practical and sublime, that come with it.

A mesmerizing biography of the brilliant and eccentric medical innovator who revolutionized American surgery and founded the country's most famous museum of medical oddities. Imagine undergoing an operation without anesthesia, performed by a surgeon who refuses to sterilize his tools—or even wash his hands. This was the world

of medicine when Thomas Dent Mütter began his trailblazing career as a plastic surgeon in Philadelphia during the mid-nineteenth century. Although he died at just forty-eight, Mütter was an audacious medical innovator who pioneered the use of ether as anesthesia, the sterilization of surgical tools, and a compassion-based vision for helping the severely deformed, which clashed spectacularly with the sentiments of his time. Brilliant, outspoken, and brazenly handsome, Mütter was flamboyant in every aspect of his life. He wore pink silk suits to perform surgery, added an umlaut to his last name just because he could, and amassed an immense collection of medical oddities that would later form the basis of Philadelphia's renowned Mütter Museum. Award-winning writer Cristin O'Keefe Aptowicz vividly chronicles how Mütter's efforts helped establish Philadelphia as a global mecca for medical innovation—despite intense resistance from his numerous rivals. (Foremost among them: Charles D. Meigs, an influential obstetrician

who loathed Mütter's "overly modern" medical opinions.) In the narrative spirit of *The Devil in the White City*, Dr. Mütter's *Marvels* interweaves an eye-opening portrait of nineteenth-century medicine with the riveting biography of a man once described as the "[P. T.] Barnum of the surgery room."

Smack dab in the middle of the 70s and Appalachia, Ted rented a 30 acre farm and inherited a menagerie of

animals. Strange given the fact that he grew up in suburban Oklahoma City in the days of Father Knows Best, never visited his Uncles farm without having his allergies kick up, and didnt know jack about doing anything demanded of farm life. Another thing, the farm was surrounded by Varmits. These neer-dowells lived in the hills and hollers of Meigs County, Ohio and became infamous in their own minds for softball playing, cock fighting, dope growing, Grateful Dead listening, free loving, and beer drinking. Ted became Scoop to the Varmits through his skills as a first baseman, all the while pursuing a Ph.D. in interpersonal communication at Ohio University back in Athens. This introspective book is Teds lively account of the

adventures of his dual life, attending a cock fight high on mushrooms and giving a graduation address to thousands, skinny-dipping at Varmit State Park and completing doctoral comprehensives, running with outlaws while preparing to become successful in his chosen profession, growing a garden and trying to grow up himself. It was a wild ride, and what he learned about himself being a Varmit has lasted a lifetime. *Accounting* Penguin Lead Yourself First Bloomsbury Publishing USA
