 Despite some progress, women's share in senior management is still poor. Closing the gender gap in leadership leads to better business and financial outcomes. ADB's Trade Finance Program—which guaranteed or funded 3,500 transactions in 2017 valued at \$4.5 billion—conducted a gender audit among several of its partner banks. The objective of this study was to develop specific, practical and implementable recommendations to attract, retain, and promote more women in banking. This study was a joint effort between ADB's Private Sector Department and the Gender Equity Thematic Group, funded by the Australian Department of Foreign Affairs and Trade.

 RAILTEL Deputy Manager (Finance) Exam: Commerce Subject Ebook-PDF Chandresh Agrawal
 This book provides a systematic overview of the current trends in research relating to the use of artificial intelligence in Islamic financial institutions (IFIs), across all organization of Islamic cooperation (OIC) countries. Artificial Intelligence and Islamic Finance discusses current and potential applications of artificial intelligence (AI) for risk management in Islamic finance. It covers

various techniques of risk management, encompassing asset and liability management risk, credit, market, operational, liquidity risk, as well as regulatory and Shariah risk compliance within the financial industry. The authors highlight AI's ability to combat financial crime such as monitoring trader recklessness, anti-fraud and anti-money laundering, and assert that the capacity of machine learning (ML) to examine large amounts of data allows for greater granular and profound analyses across a variety of Islamic financial products and services. The book concludes with practical limitations around data management policies, transparency, and lack of necessary skill sets within financial institutions. By adopting new methodological approaches steeped in an Islamic economic framework (e.g., analysing FinTech in the context of Shariah principles and Islamic values), it devises practical solutions and generates insightful knowledge, helping readers to understand and explore the role of technological enablers in the Islamic finance industry, such as RegTech and artificial intelligence, in providing better and Shariah-compliant services to customers through digital platforms. The book will attract a wide readership spanning Shariah scholars, academicians, and researchers as well as Islamic financial practitioners and policy makers.

This revision guide is intended to serve as a complement to the textbook. Its aim is essentially to provide past examination questions set by the Institute of Bankers and the examiners' own answers together with past questions set at the City of London Polytechnic and other questions, with their answers. This gives the reader a wider range of topics which reflects the contents of the textbook, and permits of selectivity to meet need. It is suggested that as each textbook chapter is read, the relevant section in the Revision Guide should be attempted in order to test knowledge and understanding, thereby further enhancing the learning process. To facilitate this, the guide is set out section by section, to match the chapters in the textbook. Several sections are prefaced by introductions to bridge the gap between textbook and questions. In addition, questions are presented in succeeding order of difficulty so that readers can move from the less to the more complex at their own speed. November 1985 L. Waxman vii Passing the Examination The Banking Diploma Stage 2 Examination Finance of International Trade. The Institute of Bankers Diploma examinations take place twice yearly, in April and September. Prospective candidates who wish to prepare themselves as thoroughly as possible and who are using the associated textbook to this revision guide will find the question and answers which it contains an indispensable means of preparation for the examination paper "Finance of International Trade".
