Discover the pleasures of knitting in the round! Margaret Radcliffe presents classic circular knitting techniques — including Fair Isle, helix, and tubular — in detailed step-by-step photographic sequences. This comprehensive guide provides directions for 35 demonstration projects, so you can practice each technique on a miniature hat, mitten, or

sweater before applying it to a larger project. With tips on how to adapt any straight-needle pattern for use with circular needles, *Circular Knitting Workshop* opens up endless possibilities. La Tristesse de Saint Louis Meteor Books
Originally published in 1986, and bringing together essays written over a 10 year period, this volume offers a coherent and challenging interpretation of the German past. The book argues that the German Empire between 1971 and 1914 may have enjoyed greater

stability and cohesion than is often assumed. It suggests that Imperial Germany's political institutions showed considerable flexibility and capacity for growth and puts forward the idea that without WWI, or in the event of a German victory, the Empire might well have demonstrated its viability as a modern state. In that case, the origins of fascism should be sought mainly in the subsequent experiences of war, revolution and economic crisis and not so much in the Empire's so-called structural backwardness.

The Future of Fashion is Now David and Charles

Introducing an exciting new technique called domino knitting, this book teaches both beginners and experts the patterning technique that became a

craze among Scandinavian knitters. Beginning with basic instructions and progressing to sophisticated projects, this guide shows how domino knitting allows for easy designing by allowing knitters to build squares on one another horizontally and vertically at will. Precise step-by-step instruction show how squares can be worked in a variety of stitches for multicolored effects. Included is a key to selecting the proper yarn for any project as well as care instructions for any creation.

Doomsday Knits MCD x FSG Originals A "provocative and richly insightful new book" (The New York Times Book Review) that gives us a shrewd and penetrating analysis of the complex relationship between the first black president and his African-American

constituency. Renowned for his insightful, common-sense critiques of racial politics, Randall Kennedy now tackles such hot-button issues as the nature of racial opposition to Obama; whether Obama has a singular responsibility to African Americans; the differences in Obama's presentation of himself to blacks and to whites; the challenges posed by the dream of a post-racial society; the increasing irrelevance of a certain kind of racial politics and its consequences; the complex symbolism of Obama's achievement and his own obfuscations and evasions regarding racial justice. Eschewing the critical excesses of both the left and the right, Kennedy offers an incisive view of Obama's triumphs and travails, his strengths and weaknesses,

as they pertain to the troubled history of race in America.

Khuc Cay's Tiny Hands Penguin

The Guardian's Pick for Best Science Fiction Book of the Year! A timely and uncanny portrait of a world in the wake of fake news, diminished privacy, and a total shutdown of the Internet BEFORE: In Bristol's center lies the Croft, a digital no-man's-land cut off from the surveillance, Big Data dependence, and corporate-sponsored, globally hegemonic aspirations that have overrun the rest of the world. Ten years in, it's become a center of creative counterculture. But it's fraying at the edges, radicalizing from inside. How will it fare when its chief architect, Rushdi Mannan, takes off to meet his boyfriend in New York City—now the apotheosis of the new techno-utopian global

metropolis? AFTER: An act of anonymous cyberterrorism has permanently switched off the Internet. Global trade, travel, and communication have collapsed. The luxuries that characterized modern life are scarce. In the Croft, Mary—who has visions of people presumed dead—is sought out by grieving families seeking connections to lost ones. But does Mary have a gift or is she just hustling to stay alive? Like Grids, who runs the Croft's black market like personal turf. Or like Tyrone, who hoards music (culled from cassettes, the only medium to survive the crash) and tattered sneakers like treasure. The world of Infinite Detail is a small step shy of our own: utterly dependent on technology, constantly brokering autonomy and privacy for comfort and

convenience. With Infinite Detail, Tim Maughan makes the hitherto-unimaginable come true: the End of the Internet, the End of the World as We Know It.

Their Promised Land Welbeck Publishing Group

The year is 3015... The polar ice caps have melted and the deserts expanded, leaving the Earth a seared, crusty Hell. Meanwhile, nuclear fallout has blocked out the sun, plunging the world into a new ice age. (Yes, at the same time.) The question on your mind? "What should I knit?" Doomsday Knits is a collection of garments and accessories inspired by the post-apocalyptic genre of film, literature, and fashion. These cutting-edge fashion pieces are just as at home in your closet today as they will be

in the dystopian wastelands of tomorrow.

A family history of surpassing beauty and power: Ian Buruma's account of his grandparents' enduring love through the terror and separation of two world wars. During the almost six years England was at war with Nazi Germany, Winifred and Bernard Schlesinger, Ian Buruma's grandparents, and the film director John Schlesinger's parents, were, like so many others, thoroughly sundered from each other. Their only recourse was to write letters back and forth. And write they did, often every day. In a way they were just picking up where they left off in 1918, at the end of their first long

separation because of the Great War that swept Bernard away to some of Europe's bloodiest battlefields. The thousands of letters between them were part of an inheritance that ultimately came into the hands of their grandson, Ian Buruma. Now, in a labor of love that is also a powerful act of artistic creation, Ian Buruma has woven his own voice in with theirs to provide the context and counterpoint necessary to bring to life, not just a remarkable marriage, but a class, and an age. Winifred and Bernard inherited the high European cultural ideals and attitudes that came of being born into prosperous German-Jewish émigré families. To young Ian, who would visit from Holland every Christmas, they seemed the very essence of England, their spacious

Berkshire estate the model of genteel English country life at its most pleasant and refined. It wasn't until years later that he discovered how much more there was to the story. At its heart, *Their Promised Land* is the story of cultural assimilation. The Schlesingers were very British in the way their relatives in Germany were very German, until Hitler destroyed that option. The problems of being Jewish and facing anti-Semitism even in the country they loved were met with a kind of stoic discretion. But they showed solidarity when it mattered most. As the shadows of war lengthened again, the Schlesingers mounted a remarkable effort, which Ian Buruma describes movingly, to rescue twelve Jewish children from the Nazis and see to their upkeep in England. Many are the

books that do bad marriages justice; precious few books take readers inside a good marriage. In *Their Promised Land*, Buruma has done just that; introducing us to a couple whose love was sustaining through the darkest hours of the century. Look for Ian's new book, *A Tokyo Romance*, in March, 2018.

It was the last refuge of the desperate Jews-the warren of sewers underneath their city. Above, the Nazis implemented the destruction of their friends and relatives in a final Aktion against the ghetto in the Polish city of Lvov. A small

band of Jews, however, escaped into the grim network of tunnels, there to live for fourteen months with the city's waste, the sudden floods that washed some of them away, the fumes and the damp, the rats, the darkness, and the despair. Their only support was a sewer worker, an ex-criminal who constantly threatened to leave them if they ran out of money. Many died; some of cyanide in mass suicide, some of falling into the rushing waters of the river, some simply of exhaustion. A baby was born and then murdered almost immediately. The group quarrelled, split into factions and threatened each other at gun point. The survivors found themselves at one point, trapped in a chamber filling to the roof with storm water. Yet survive they did, even infiltrating themselves into the

camp above to find their missing relatives. When the Russians liberated Lvov, they emerged from the sewers filthy, bent double, emaciated, unrecognizable. When they opened their eyes their eye seemed blood red. Robert Marshall, author of *All the King's Men*, has written the harrowing story of the survivor's ordeal based on a long series of interviews and a hitherto private diary, creating a blazing testimony to human faith and endurance. In the *Sewers of Lvov* was the inspiration for Academy Award nominated *In Darkness*. *Zoomigurumi 9* Edward Elgar Publishing Let's go on a wonderful treasure hunt Designer Erinna Lee has drawn up a map to help you discover her most darling amigurumi. Craftfulness Knit Like a Latvian

A garment that responds to emotions, lace patterns that grow from a plant, textile that decomposes itself and fashion that literally zips people together ... With a critical look at today's fashion industry, more than fifty young designers and a number of illustrious innovators such as Viktor & Rolf and Comme des Garçons give us their vision of the fashion of tomorrow. The development of new technologies and a grasp of the importance of sustainability

are what is driving young designers worldwide and causing them to expand the borders of the traditional fashion system. With their innovative solutions and fresh designs, this latest generation of fashion designers has arrived at the interface between fashion and art. At the invitation of Han Nefkens Fashion on the Edge, and scouted by fashion experts from around the world, six designers have each produced a new work especially for the exhibition 'The future of fashion is now': Iris van Herpen (the Netherlands), Digest Design Workshop (China), Lucía Cuba (Peru), Craig Green (Great Britain), D & K (Australia) and Olek (Poland/the United States). This book not only provides an overview of the work by the more than fifty designers being shown at the exhibition,

but it also traces the development of and ideas behind the exhibition's special works. Exhibition: Museum Boijmans van Beuningen, Rotterdam, The Netherlands (11.10.2014-18.01.2015).

This book provides a series of contemporary and international policy case studies analysed through discursive methodological approaches in the traditions of critical discourse analysis, social semiotics and discourse theory. This is the first volume that connects this discursive methodology systematically to the field of critical policy analysis and will therefore be an essential book for researchers who wish to include a discursive analysis in their critical policy

research.
