 This introductory guide and valuation of the world's most legendary wristwatches includes more than 200 photographs that trace the trends of man's favorite toy - and his only socially acceptable piece of jewelry - for more than 100 years. The finely detailed photos reveal the beautiful and fascinating fashions in wristwatch style from 1879 to the modern era. From the prolific collection of renowned auctioneer and wristwatch expert Stefan Muser, the most legendary models from every era are described and pictured. Brands include Omega, Patek Philippe, Longines, Cartier, Rolex, Vacheron & Constantin, Ulysse Nardin, Orly, Vulcain, IWC, and Movado. Values range from interesting and trouble-free entry-level wristwatches to exceptionally rare pieces for ambitious collectors.

 George Berkeley was considered "the most engaging and useful man in Ireland in the eighteenth century". This hyperbolic

statement refers both to Berkeley's life and thought; in fact, he always considered himself a pioneer called to think and do new things. He was an empiricist well versed in the sciences, an amateur of the mechanical arts, as well as a metaphysician; he was the author of many completely different discoveries, as well as a very active Christian, a zealous bishop and the apostle of the Bermuda project. The essays collected in this volume, written by some leading scholars, aim to reconstruct the complexity of Berkeley's figure, without selecting "major" works, nor searching for "coherence" at any cost. They will focus on different aspects of Berkeley's thought, showing their intersections; they will explore the important contributions he gave to various scientific disciplines, as well as to the eighteenth-century philosophical and theological debate. They will highlight the wide influence that his presently most neglected or puzzling books had at the time; they will refuse any anachronistical trial of Berkeley's thought, judged from a contemporary point of view.

When a ransom exchange turns deadly in this thrilling mystery from bestselling author Anne Perry, Commander William Monk faces an unthinkable possibility: betrayal by his own men. NAMED ONE OF THE BEST CRIME NOVELS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • "Riveting . . . one of the series' more powerful recent entries."—Publishers Weekly When kidnappers choose a broken-down waterside slum as the site of a ransom exchange for the wife of wealthy real estate developer Harry Exeter, the Thames River Police and Commander William Monk shadow Harry to the spot to ensure that no harm comes to him or his captive wife. But on arrival, Monk and five of his best men are attacked from all sides. Certain that one of his colleagues has betrayed him, Monk delves into each of their pasts, one of which hides a dreadful secret. Soon facing a series of deadly obstructions, Monk must choose between his own safety and the chance to solve the mystery—and to figure out where his men's loyalty really lies. Praise for *Dark Tide Rising* "Perry makes cunning work of the plot, which raises issues of trust and loyalty while driving home a grim message about the vulnerability of women who entrust their fortunes to unscrupulous men."—The New York Times Book Review "One of the most successful of prolific Perry's recent Victorian melodramas. The opening chapters are appropriately portentous, the mystification is authentic, and if the final surprise isn't exactly a shock, it's so well-prepared that even readers who don't gasp will nod in satisfaction."—Kirkus Reviews "Another deftly crafted gem of a suspense thriller by a master of the mystery genre . . . a 'must read.'"—Midwest Book Review "Superb . . . [a] brilliant piece of historical fiction . . . No one writes Victorian-era stories quite like Perry."—BookReporter

"A perfect setting and first-rate storytelling." —Ragnar Jónasson, bestselling author of *The Dark Iceland* series From international bestselling author, Jeffrey Siger, comes another heart-stopping story of corruption and intrigue. The case begins for Athens' Chief Inspector Andreas Kaldis with a literal bang when a corrupt former police colonel who runs a protection racket on Mykonos is gunned down. Suddenly, Kaldis is face-to-face with Greece's top crime bosses on an island whose natural beauty and reputation as an international playground belies the corruption lurking just

beneath the surface. While Kaldis and his Special Crimes unit wrestle for answers, his wife, Lila, meets an American expat named Toni, a finder of stolen goods and a piano player in a gender-bending bar who has a zest for life and no apparent regard for rules. As Lila and Toni bond over a common desire to mentor young island girls trapped in an exploitative and patriarchal culture, they soon find that their efforts intersect with Kaldis' investigation in ways that prove to be dangerous for all involved... This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Ispirandosi alla logica che aveva guidato Palladio nel "Secondo" dei suoi "Quattro libri dell'Architettura", in questo volume i curatori hanno voluto la parola scritta ridotta all'essenziale, per lasciare spazio alle oltre 250 fotografie scattate da Pino Guidolotti. Un vero e proprio ritratto dell'opera palladiana allo scadere del secolo, attraverso il quale sono state censite tutte le 66 opere autografe, o presunte tali da una tradizione consolidata.
