Press

This is a book about the reality of place

in America, the events and influences that led to the America we recognize today. It is a book about the growth of American cities and their suburbs during the twentieth century, about institutions and metropolitan governance, about real estate development and finance, about housing and the lack of it, about the emergence and perhaps the eventual debilitation of cities and suburbs alike. Incorporating the thinking of visionary city planners and land use economists, the author presents a lucid primer on the economics of land, its development and usage, and on how things actually get done in the real estate industry.

Urban Economics and Land Use in America: The Transformation of Cities in the Twentieth Century

Between ten and fifteen thousand persons of Cuban-Jewish heritage currently live in Miami. Until now, however, this vibrant community and its unique traditions have, to a large extent, escaped the notice of ethnographers, historians, and other scholars. In *Cuban-Jewish Journeys*, Caroline Bettinger-López remedies that neglect with an engaging, in-depth look at a people whose rich mix of cultures confounds

typical ethnic images. The author begins by investigating the history and development of the Cuban-Jewish community, tracing its origins back to Jewish enclaves in Eastern Europe, Russia, and the Mediterranean. She explores how these people came to Cuba in the first half of the twentieth century and how they eventually resettled in the United States as part of the larger Cuban migration that followed Fidel Castro's 1959 revolution. In recounting this history, Bettinger-López draws heavily on numerous stories told to her by Cuban Jews in Miami and elsewhere. Those oral histories also form the basis of Bettinger-López's subsequent exploration of the identity and assimilation issues facing "Jewbans" (as many in Miami began calling themselves

in the 1970s). She found that place and date of birth, for instance, may affect an individual's identification with a particular homeland and political ideology, which may in turn influence how the individual "remembers" Cuban-Jewish history. The future of Miami's Jewban community, she suggests, now lies in the hands of a generation that, for the most part, has grown up within the United States. Already, the community is transforming itself linguistically, culturally, and religiously to accommodate the younger generation. Skillfully interweaving historical analysis, personal reflections, inter-generational stories, theories of diaspora, photographs, and current debates on ethnographic writing, Cuban-Jewish Journeys will appeal not only to scholars

but to anyone interested in the ever-changing face of multicultural America. The Author: Caroline Bettinger-López, a native of Miami, studied anthropology at the University of Michigan. Since her graduation, she has worked in various teaching and social-service positions in Miami. Most recently, she has taught disadvantaged children in Haiti.
