O'Neill's music of Ireland Simon and Schuster
 "A Traveler girl named Ossiri makes her own musical instrument from a willow branch and lots of recycled objects. Although she plays it enthusiastically, it makes a terrible noise. Ignoring warnings not to wake the ogre in the hills, Ossiri climbs away from the camp to practice. Will she wake the ogre, and will it appreciate her playing? Told by a Romani storyteller and a picture book author, this original tale offers a fascinating insight into traveling lifestyles and cultures"--Dust jacket.

 This remarkable memoir of immigration and assimilation provides a rare view of urban life in Chicago in the late 1800s by a newcomer to the city and the Midwest, and the nation as well. Francis O'Neill left Ireland in 1865. After five years traveling the world as a sailor, he and his family settled in Chicago just shortly before the Great Fire of 1871. As O'Neill looked back on his life, writing in Chicago at the age of 83, he could give first-hand accounts of the Pullman strike of 1894, the railway strike of 1903, and the packing-house strike of 1904. He could also reflect on the corruption that kept him, in spite of his innovations, extremely high exam scores, and performance, subject to powerful aldermen who prevented his advance as a member of the Chicago Police Department. Despite these obstacles, O'Neill eventually rose to be chief of police—a position from which he could enact much-needed civil service reform. In addition to his professional success, O'Neill is also remembered and beloved for his hobby, preserving traditional Irish music. O'Neill's story offers perspective on the inner workings of the police department at the turn of the twentieth century. His memoir also brings to life the challenges involved in succeeding in a new land, providing for his family, and integrating into a new culture. Francis O'Neill serves as a fine documentarian of the Irish immigrant experience in Chicago.

The Ancient Music of Ireland Courier Corporation
 "Francis O'Neill was Chicago's larger-than-life police chief, starting in 1901- and he was an Irish immigrant with an intense interest in his home country's music. In documenting and publishing his understanding of Irish musical folkways, O'Neill became the foremost shaper of what "Irish music" meant. He favored specific rural forms and styles, and as Michael O'Malley shows, he was the "beat cop" -actively using his police powers and skills to acquire knowledge about Irish music and to enforce a nostalgic vision of it"--

 Inventive, outlandish, and tender fairy tales from a bestselling author The fantastic has always been at the edges of Heather O'Neill's work. In her bestselling novels *Lullabies for Little Criminals* and *The Girl Who Was Saturday Night*, she transformed the shabbiest streets of Montreal with her beautiful, freewheeling metaphors. She described the smallest of things—a stray cat or a second-hand coat—with an intensity that made them otherworldly. In *Daydreams of Angels*, O'Neill's first collection of

short stories, she gives free reign to her imaginative gifts. In "The Ugly Ducklings," generations of Nureyev clones live out their lives in a grand Soviet experiment. In "Dear Piglet," a teenaged cult follower writes a letter to explain the motivation behind her crime. And in another tale, a grandmother reveals where babies come from: the beach, where young mothers-to-be hunt for infants in the surf. Each of these beguiling stories twists the beloved narratives of childhood—fairy tales, storybooks, Bible stories—to uncover the deepest truths of family life.

 Professor Luke O'Neill has become one of the most well-known and trusted voices of Ireland's COVID-19 pandemic, thrust into the spotlight as we struggled to make sense of a crisis that saw the country grind to a halt. In these personal diaries, Luke reveals what life was like behind the scenes as he endeavoured to keep calm and trust that the science would save us. Luke's lockdown diaries show the highs and lows of work at the cutting edge in his Trinity College lab, as well as his experience of the disappointments and the breakthroughs in science around the world, and ultimately the contribution scientists made to the health outcomes of millions globally. Shot through with the natural positivity and humour that have made Luke a home-grown hero, *Keep Calm and Trust the Science* is a compelling account of a dramatic year in Irish history from one of its key players.

Irish Minstrels and Musicians Travellers Tales (Educational Piano Library). Students are genuinely surprised when things go wrong in a lesson. It helps the student solve specific problems with 58 concise practice tips clearly-explained drills and tactics for mastering challenging passages. Printed on heavy-coated stock for durability, the Guide is designed to be kept on the music desk for quick reference by the student when problems occur in daily practice. Practice tips are categorized to address issues of accuracy, balance, clarity, continuity, coordination, comfort, evenness, expression, fingering, rhythm and speed. 'Absolutely hilarious' - Neil Gaiman 'One of the funniest musical commentators that you will ever read . . . loud and thoroughly engrossing' - Alan Moore 'A man on a righteous mission to persuade people to "lay down your souls to the gods rock and roll".' - The Sunday Times 'As funny and preposterous as this mighty music deserve' - John Higgs The history of heavy metal brings us extraordinary stories of larger-than-life characters living to excess, from the household names of Ozzy Osbourne, Lemmy, Bruce Dickinson and Metallica (SIT DOWN, LARS!), to the brutal notoriety of the underground Norwegian

black metal scene and the New Wave Of British Heavy Metal. It is the story of a worldwide network of rabid fans escaping everyday mundanity through music, of cut-throat corporate arseholes ripping off those fans and the bands they worship to line their pockets. The expansive pantheon of heavy metal musicians includes junkies, Satanists and murderers, born-again Christians and teetotallers, stadium-touring billionaires and toilet-circuit journeymen. Award-winning comedian and life-long heavy metal obsessive Andrew O'Neill has performed his History of Heavy Metal comedy show to a huge range of audiences, from the teenage metalheads of Download festival to the broadsheet-reading theatre-goers of the Edinburgh Fringe. Now, in his first book, he takes us on his own very personal and hilarious journey through the history of the music, the subculture, and the characters who shaped this most misunderstood genre of music. *O'Neill's Music of Ireland* Northwestern University Press This expanded third edition features a new preface, introduction, and collection of essays by space researchers.
