The SAS® Certified Specialist Prep Guide: Base Programming Using SAS® 9.4 prepares you to take the new SAS 9.4 Base Programming -- Performance-Based Exam. This is the official guide by the SAS Global Certification Program. This prep guide is for both new and experienced SAS users, and it covers all the objectives that are tested on the exam. New in this edition is a workbook whose sample scenarios require you to write code to solve problems and answer questions. Answers for the chapter quizzes and solutions for the sample scenarios in the workbook are included. You will also find links to exam objectives, practice exams, and other resources such as the Base SAS® glossary and a list of practice data sets. Major topics include importing data,

creating and modifying SAS data sets, and identifying and correcting both data syntax and programming logic errors. All exam topics are covered in these chapters: Setting Up Practice Data Basic Concepts Accessing Your Data Creating SAS Data Sets Identifying and Correcting SAS Language Errors Creating Reports Understanding DATA Step Processing BY-Group Processing Creating and Managing Variables Combining SAS Data Sets Processing Data with DO Loops SAS Formats and Informats SAS Date, Time, and Datetime Values Using Functions to Manipulate Data Producing Descriptive Statistics Creating Output Practice Programming Scenarios (Workbook) *Data Structures & Algorithms Interview Questions You'll Most Likely Be Asked* SAS Institute

### **SAP HANA Interview Questions You'll Most Likely Be Asked** Vibrant Publishers

SAS® is one of the fastest growing and matured software solutions for the analytics worlds and recent development in the Machine Learning and Artificial intelligence made this SAS software even more useful and well-integrated with BigData computing world. It has its own programming languages which is popularly known as Base SAS and if you want to learn and become expert for the SAS then you must learn this SAS Base programming. In this book we are covering

around 165 SAS Base interview questions and answers which are popularly asked in the interview and must aware all this concept covered. In this book we are not covering advanced concepts like Machine Learning, Data science, Artificial intelligence, Big Data etc., there would be separate book launched for the same. This book also helps for the learners who are preparing for the SAS certification like A00-215, A00-231 & A00-232 global SAS certification which include both multiple choice as well as project-based questions and answers. However, for complete questions and answer please visit our website and you can get the

same questions and answer in video cum audio book. You must go through this Question and Answer before your real SAS interview questions and keep this book handy if you are working or plan to work in the SAS world. On regular basis we would be updating this book based on the learners feedback and more interview questions would be added, hence it is always recommended that you have access to the latest edition of the book.
