Since the 1950s the world has witnessed a period of extraordinary religious revival in which religious political parties and non-governmental organizations have gained power around the globe. At the same time, the international community has come to focus on the challenge of promoting global human security. This groundbreaking book explores how these trends are interacting. In theoretical essays and case studies from Turkey, Egypt, Pakistan, the Americas, Africa and Europe, the contributors address such crucial questions as: Under what circumstances do religiously motivated actors advance or harm human welfare? Do certain state policies tend to promote security-enhancing behavior among religious groups? The book concludes by providing important suggestions to policymakers about how to factor the influence of religion into their evaluation of a population's human security and into programs designed to improve human security around the globe.

Set in a fictitious African nation, this novel by the distinguished writer Sony Labou Tansi takes aim at the corruption, degeneracy, violence, and repression of political life in Africa. At the heart of *The Shameful State* is the story of Colonel Martillimi Lopez, the nation's president, whose eccentricity and whims epitomize the "shameful situation in which humanity has elected to live." Lopez stages a series of grotesque and barbaric events while his nation falls apart. Unable to resist the dictator's will, his desperate citizens are left with nothing but humiliation. The evocation of this deranged world is a showcase for the linguistic and stylistic inventiveness that are the hallmark of Sony Labou Tansi's work. This first English translation by Dominic Thomas includes a foreword by Congolese writer Alain Mabanckou that contextualizes the novel's importance in literary history and the significance of Sony Labou Tansi for future generations of writers.

Frithiof's Saga Forgotten Books

Rising from a position of relative poverty in 1980, China is now the world's second-largest economy and a leader in many fields of innovation. Understanding China's new status as a technologically advanced world power and the means by which it has reached that position will be critical to policy-makers and business leaders in the years ahead. The Oxford Handbook of China Innovation provides a contemporary and authoritative view of the role of innovation in China's extraordinary emergence. The Handbook brings together over sixty experts from universities and research institutions worldwide to describe and analyze this phenomenon with criticism, policy discussion, and views about further development. The volume focuses on the microeconomic factors in China's growth and the way in which the steady drive for innovation has been a critical force. Chapters cover a wide scope of topics including China's development policies, the place of innovation in national priorities, the components of the national innovation system, and the resources required for their effective deployment. The issue of foreign influence is also addressed, including the evolution of policy towards inward foreign direct investment and knowledge transfer and China's goals for outward foreign direct investment. As China emerges as a contender for global leadership, the Handbook provides a data-driven, accessible, and comprehensive foundation to understand and predict the challenges ahead.

This story unfolds amidst the traditional social and cultural life of the people inhabiting Ukerewe in northern Tanzania. It tells of the lives of Mr Myombekere and his wife Bugonoka whose love survives despite their failure to conceive children in a polygamous society where sterility is stigmatised, bearing children is a central source of meaning in life, and a man is expected to marry additional women until he produces a child. This couple remain committed only to one another and search for a cure to their ailment. Their actions strengthen their relationship, and they become an exemplary couple in their society, finally rewarded by the birth of a son and daughter. The genesis and evolution of Kitereza's epic novel and its context is as perhaps as remarkable as the work itself. Kitereza was born in Ukerewe in 1896 and wrote at the height of colonial rule, in part to preserve a culture threatened with extinction. He wished to keep alive the relationships of a people with one another and the land, and the spirit of cooperation on which their social life was based. He chose to write in his native Kikerewe because 'above all, I wanted this to be a way of preserving the language of our ancestors, by showing the reader how beautifully they spoke to each other'. This classic Tanzanian story was written in Kikerewe in 1945, but to this day, remains unpublished in this language. Failure to find a publisher for the Kikerewe work persuaded Kitereza to translate his work into Swahili in 1969, which was then published in 1980 and widely acclaimed. Previously only available in the author's own Kiswahili

translation, this is the first complete translation into English. The translator, Gabriel Ruhumbika is a writer, professor of literature and descendant of Kitereza. He had unique access to the author's manuscripts and diaries. Ruhumbika also provides a comprehensive introduction and explanatory notes on the text.

Excerpt from *La Grammaire* In a large number of cases the persons made fun of by Labiche belong to the bourgeois class, - that good, substantial, matter-of-fact middle-class, to which he himself belonged, and from which so much that is worthy has come. But the ridicule is kindly. You are almost made to sympathise with the bourgeois. He, poor fellow, is indeed merely the victim of circumstances. It is no fault of his that he is born in an age in which people are crazy about antiquarianism, correctness in spelling or the management of public affairs. A New Translation From The French By Marion Wiesel Born in Sighet, Transylvania, Elie Wiesel was a teenager when he and his family were taken from their home in 1944 and deported to the

Auschwitz concentration camp, and then to Buchenwald. Night is the terrifying record of Elie Wiesel's memories of the death of his family, the death of his own innocence, and his despair as a deeply observant Jew confronting the absolute evil of man. This new translation by his wife and most frequent translator, Marion Wiesel, corrects important details and presents the most accurate rendering in English of Elie Wiesel's seminal work.

Available in English for the first time, Joaquim Amat-Piniella's searing Catalan novel, *K.L. Reich*, is a central work of testimonial literature of the Nazi concentration camps. Begun immediately after Amat-Piniella's liberation in 1945, the book is based on his own four-year internment at Mauthausen. "When the war is over, remember all this. Remember me," implores one of the book's characters on his deathbed, and it is this call to bear witness that Amat-Piniella takes up in his account of the Spanish Republican fighters who were exiled in France at the end of the Spanish Civil War in 1939 and soon swept up into the German concentration camp system. As an already organized anti-fascist army, they played an important role as a nucleus of resistance within the camps, and their story is little known to English-language readers. Because of the length of his internment, his decision to write his book as fiction, and his staggering powers of observation and recollection, Amat-Piniella's portrayal of life in the camps is unmatched in scope and detail. It is also a compelling study of three powerful ideological movements at work at the time: anarchism, communism, and fascism, all within the desperate and brutal world of the camps. "My book does not seek to deepen wounds or differences, but to unite people before cruelty," said Amat-Piniella. This is an essential text as we ponder the twentieth century and its meaning to us today. This edition includes a new
