An Authoritarian Third Way in the Era of Fascism Simon and Schuster

In the early 1920s, Jaydayal Goyandka and Hanuman Prasad Poddar, two Marwari businessmen-turned-spiritualists, set up the Gita Press and Kalyan magazine. As of early 2014, Gita Press had sold close to 72 million copies of the Gita, 70 million copies of Tulsidas's works and 19 million copies of scriptures like the Puranas and

Upanishads. And while most other journals of the period, whether religious, literary or political, survive only in press archives, Kalyan now has a circulation of over 200,000, and its English counterpart, Kalyana-Kalpataru, of over 100,000. Gita Press created an empire that spoke in a militant Hindu nationalist voice and imagined a quantifiable, reward-based piety. Almost every notable leader and prominent voice, including Mahatma Gandhi, was roped in to speak for the cause. Cow slaughter, Hindi as national language and the rejection of Hindustani, the Hindu Code

Bill, the creation of Pakistan, India's secular Constitution: Kalyan and Kalyana-Kalpataru were the spokespersons of the Hindu position on these and other matters. Featuring an extraordinary cast of characters - buccaneering entrepreneurs and hustling editors, nationalist ideologues and religious fanatics - this is essential (and exciting) reading for our times.

This book takes a transnational and comparative approach that analyses the process of diffusion of a third way in selected transitions to authoritarianism in Europe and Latin America. When looking at the authoritarian wave of the 1930s, it is not difficult to see how some regimes appeared to offer an authoritarian third way somewhere

between democracy and fascism. It is in this context that some Iberian dictatorships, such as those of Primo de Rivera in Spain, Salazar's New State in Portugal and the short-lived Dollfuss regime in Austria are mentioned frequently. Especially during the 1930s, and in those parts of Europe under Axis control, these models were discussed and often adopted by several dictatorships. This book considers how and why these dictatorships on the periphery of Europe, especially Salazar's New State in Portugal, inspired some of these regimes' new political institutions particularly within Europe and Latin America. It pays special attention to how, as they proposed and pursued these authoritarian reforms, these domestic political actors also looked at

these institutional models as suitable for their own countries. The volume is ideal for students and scholars of comparative fascism, authoritarian regimes, and European and Latin American modern history and politics.

Victor Hugo's *Bug-Jargal* (1826) is one of the most important works of nineteenth-century colonial fiction, and quite possibly the most sustained novelistic treatment of the Haitian Revolution by a major European author. This Broadview edition makes Hugo's novel available in a completely new English translation, the

first in over one hundred years. Set in 1791, during the first months of a slave revolt that would eventually lead to the creation of the black republic of Haiti in 1804, *Bug-Jargal* is a stirring tale of interracial friendship and rivalry, a provocative account of the ties that bind a young Frenchman to one of the rebel leaders and the tragic misunderstandings that threaten to sever those ties completely. This Broadview edition contains a critical introduction and a broad selection of appendices, including Hugo's never-before-translated 1820 short story "*Bug-Jargal*," contemporary reviews of the novel, documents pertaining to the young Hugo's poetics and politics, and selections from his source materials about the Haitian Revolution.

Sufism is a religion which emphasizes direct knowledge of the divine within each person, and meditation, music, song, and dance are seen as crucial spiritual strides toward attaining unity with God. Sufi paths of mysticism and devotion, motivated by Islamic ideals, are still chosen by men and women in countries from Morocco to China, and there are nearly one hundred orders around the world, eighty of which are present and thriving in the United States. The Chishti Sufi order has been the most widespread and popular of all Sufi traditions since the twelfth-century. Sufi Martyrs of Love offers a critical perspective on Western attitudes towards Islam and Sufism, clarifying its contemporary importance, both in the

West and in traditional Sufi homelands. Finally, it provides access to the voices of Sufi authorities, through the translation of texts being offered in English for the first time.

The Iraqi Kurds have enjoyed de facto statehood in the north of Iraq for over a decade but Intra-Kurdish fighting, military incursions by Turkey and Iran and the constant threat posed by Saddam Hussein have plagued this 'democratic experiment'. In this book, Stansfield explores the development of the Kurdish political system since 1991. He examines the difficult and often violent relations between the two dominant powers, the Kurdistan Democratic Party (KDP) and the Patriotic

Union of Kurdistan (PUK), and their relationship with the Kurdish Regional Government in order to understand the current state of Iraqi Kurdish politics and the operation of the state. This topical in-depth study identifies the main dynamics of Iraqi Kurdish politics, analyzes the record and potential of the 'Kurdish democratic experiment', and identifies the present and future Kurdish leaders.

Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and

a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."

in Japanese literature prepares us for the stark, tension-filled, plot-driven realism of Natsuo Kirino's award-winning literary mystery *Out*. This mesmerizing novel tells the story of a brutal murder in the staid Tokyo suburbs, as a young mother who works the night shift making boxed lunches strangles her abusive husband and then seeks the help of her coworkers to dispose of the body and cover up her crime. The coolly intelligent Masako emerges as the plot's ringleader, but quickly discovers that this killing is merely the beginning, as it leads to a terrifying foray into the violent underbelly of Japanese society. At once a masterpiece of literary suspense and pitch-black comedy of gender warfare, *Out* is also a moving evocation of the pressures and prejudices that drive

women to extreme deeds, and the friendships that bolster them in the aftermath.

She was a diva, a dancing queen and a comedienne par excellence. An actress who set the box office on fire in a male-dominated Bollywood. What made her tick? What did it take to work in films across five languages, and churn out hits

like Himmatwala, Chaalbaaz, Moondram Pirai, Nagina, Kshana Kshanam, Mr India, Sadma, Chandni or Lamhe? All this did not come easily for her. An outsider in Bollywood, she was mocked for her poor accent and dubbed 'Ms Thunder Thighs'. Sridevi had to reinvent herself many a time, whether it was by making the white salwar kameez sexy or by playing double roles with flair. Then, after she'd left it all to be a doting wife and mother, she made a brilliant comeback with a memorable role in English Vinglish. This book traces her journey and her battles against odds, and is a tribute to her as an actor and as a woman.

ABOUT THE BOOK: Neeti and Ronit unexpectedly ended up moving to the city of Indore in central India as tragedies struck their families. When Neeti got married to Ronit, all she wanted was to get away from her mentally unstable mother and get into a household that allowed her the freedom to work as a school teacher and the freedom to drive a car. In return, if she had to take care of her in-laws and

manage the household, she was okay with that. Having witnessed her mother's utter inability to deal with life after her father's untimely demise, Neeti was determined to be self-reliant and to never have expectations from anyone. If she didn't expect anything from anyone, she would never be disappointed, and never end up like her mother who had forgotten how to live. When Ronit got married to Neeti, he just wanted to get a daughter-in-law for his parents. His father had refused to undergo the bypass surgery that the doctor had recommended unless Ronit got married and Neeti came along at the right time. Living in a joint family setup with his parents and his younger college-going brother, Ronit was okay sharing a room with his mother's daughter-in-law. He

didn't necessarily want a wife for himself. Having tried his hand at love and having failed at converting his previous year-long relationship into a love-marriage, he was not convinced that a woman could be both the wife that he wanted and the daughter-in-law that his family insisted on. Ronit and Neeti had made their expectations with regards to their marriage clear from the very beginning and in the last one year of being married they had both held up to their end of the bargain. Love was never a priority. It was something deemed so unimportant that neither of them brought it up before the wedding. Nor did they ever talk about it over the entire first year of being married. Will Neeti and Ronit continue to live in a loveless marriage, taking it simply as a

responsibility? Or will love sneak up on them on a road-trip to Ranthambore?

In *Forging the Ideal Educated Girl*, Shenila Khoja-Moolji traces the figure of the 'educated girl' to examine the evolving politics of educational reform and development campaigns in colonial India and Pakistan. She challenges the prevailing common sense associated with calls for women's and girls' education and argues that such advocacy is not simply about access to education but, more crucially, concerned with producing ideal Muslim woman-/girl-

subjects with specific relationships to the patriarchal family, paid work, Islam, and the nation-state. Thus, discourses on

girls'/ women's education are sites for the construction of not only gender but also class relations, religion, and the nation.
