This volume aims to present the current state of research on Roman roads and their foundations in a combined historical and archaeological perspective. The focus is on the diverse local histories and the varying degrees of significance of individual roads and regional networks, which are treated here for the most important regions of the empire and beyond. The assembled contributions will be of interest to historians, archaeologists

and epigraphers, since they tackle matters as diverse as the technical modalities of road-building, the choice of route, but also the functionality and the motives behind the creation of roads. Roman roads are further intimately related to various important aspects of Roman history, politics and culture. After all, such logistical arteries form the basis of all communication and exchange processes, enabling not only military conquest and security but also facilitating the creation of an organized state as well as trade, food supply and cultural exchange. The study of Roman roads must always be based on a combination of written and archaeological sources in order to take into account both their concrete geographical location and their respective spatial, cultural, and historical context.

'My object is to have you fit to live; which, if you are not, I do not desire that you should live at all.' So wrote Lord Chesterfield in one of the most celebrated and controversial correspondences between a father and son. Chesterfield wrote almost daily to his natural son, Philip, from 1737 onwards, providing him with instruction in etiquette and the worldly arts. Praised in their day as a complete manual of education, and despised by Samuel Johnson for teaching 'the morals of a whore and the manners of a dancing-master', these letters reflect the political craft of a leading statesman and the urbane wit of a man who associated with Pope, Addison, and Swift. The letters reveal Chesterfield's political cynicism and his belief that his country had 'always been governed by the only two or three people, out of two or three millions, totally incapable of governing', as well as his views on good breeding. Not originally intended for publication, this entertaining correspondence illuminates fascinating aspects of eighteenth-century life and manners. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

The Concept of Self Hassell Street Press

When he became a commercial pilot at age nineteen, Bill Grenier never imagined that one day he'd be captain of the largest commercial plane the

world had seen, flying the highest profile routes of a proud national carrier. Even less could he have imagined, at age nineteen and with barely a penny to his name, that he'd one day be a wealthy man. But he would ultimately control an empire worth nearly a billion dollars. With liberal doses of wit and humour, Miles to Millions shows what a little luck, lots of perseverance, and an appetite for adventure can do. From boarding house to boardroom, from cradle to cockpit, Grenier offers a fascinating story of success both as a commercial pilot and as a businessman. Filled with anecdotes you'd never expect from a single career - from acting as repo man taking planes for payment to saving hundreds of passengers in a stricken 747 with a collapsed co-pilot - Miles to Millions is a high-flier of a story bound to entertain both aviation experts and enthusiasts alike.

Translation and Globalization Routledge

Translation and Globalization is essential reading for anyone with an interest in translation, or a concern for the future of our world's languages and cultures. This is a critical exploration of the ways in which radical changes to the world economy have affected contemporary translation. The Internet, new technology, machine translation and the emergence of a worldwide, multi-million dollar translation industry have dramatically altered the complex relationship between translators, language and power. In this book, Michael Cronin looks at the changing geography of translation practice and offers new ways of understanding the role of the translator in globalized societies and economies. Drawing on examples and case-studies from Europe, Africa, Asia, and the Americas, the author argues that translation is central to debates about language and cultural identity, and shows why consideration of the role of translation and translators is a necessary part of safeguarding and promoting linguistic and cultural diversity.

#1 French Bestselling author of The Reunion 'It's no wonder that Guillaume Musso is one of France's most loved, bestselling authors' Harlan Coben Just a few months ago, Tom Boyd was a multi-million-selling author living in LA, in love with a world-famous pianist. But after a very public break-up he's shut himself away, suffering from total writer's block, with only drink and drugs for company. One night, a beautiful, naked stranger appears in Tom's house. She claims to be Billie, a character from his novels, who has fallen into the real world because of a printer's error in his latest book.

Crazy as her story sounds; Tom comes to see that this must be the real Billie. And she wants to strike a deal with him: if he writes his next novel she can go back to the world of fiction; in return she will help him win back his beloved Aureole. What does he have to lose?

Egypt, 1925: the Muslim world is in turmoil over Mustapha Kamal Atatürk's proposal to abolish the caliphate in Turkey. The debate over Islam and politics re-ignites as traditional political systems dissolve under pressure from European powers and most Muslim countries lose their sovereignty. Into this debate enters Ali Abdel Razek, a religious cleric trained at Al-Azhar University, arguing in favour of secularism in his essay 'Islam and the Foundations of Political Power', translated here and published in paperback for the first time. Scholarly features include A substantial introduction that places the essay in its context and explains its impact An appendix of Razek's sources with full publication details Explanatory notes beside Razek's original footnotes Additional notes about particular people, events or vocabulary that may be unfamiliar to modern readers
