Interchange Third Edition is a four-level series for adult and young-adult learners of English from the beginning to the high-intermediate level.

The Routledge Handbook of Asian Linguistics Cambridge University Press

The Routledge Handbook of Asian Linguistics provides a comprehensive overview of the ways in which Asian languages should be conceptualized as a whole, the distinct characteristics of each language group, and the relationships and results of interactions between the languages and language families in Asia. Asia is the largest and the most populous continent on Earth, and the site of many of the first civilizations. This Handbook aims to provide a systematic overview of Asian languages in both theoretical and functional perspectives, optimally combining the two in intercultural settings. In other words, the text will provide a reference for researchers of individual Asian languages or language groups against the background of the entire range of Asian languages. Not only does the Handbook act as a reference to a particular language, it also connects each language to other Asian languages in the perspective of the entire Asian continent. Cultural roles and communicative functions of language are also emphasized as an important domain where the various Asian languages interact and shape each other. With extensive coverage of both theoretical and applied

linguistic topics, The Routledge Handbook of Asian Linguistics is an indispensable resource for students and researchers working in this area.

This edited book examines the use of English as a Medium of Instruction (EMI) in a variety of international higher education contexts. The internationalization of education – indicated by increasing mobility of students, staff and ideas, as well as by policies and programmes put in place to facilitate educational exchange – has led to increasing adoption of English as a Lingua Franca (ELF) for educational purposes. In this book, the authors present the results of empirical research into the implementation, assessment, development and use of EMI programmes in different settings, presenting the case for more structured training of teachers and staff. It will be of interest to second/foreign language teaching and administrative staff, as well as anyone else involved in teaching in English at higher education level.
