Most of thye B Ed courses in India include 'Teaching of English' as an essential component of the curriculum. The main focus of such courses is on different teaching methods, teaching of prose and poetry, developing reading and writing skills and the teaching of applied grammar. Teaching of English: A Practical Course for B Ed Students, offers insights into the above-mentioned topics for both in-service and prospective teachers, to develop necessary strategies for teaching English effectively and efficiently in the class. Part I examines the history of English in India, its present position and role in our schools, etc. Part II considers the different teaching methods and their implications for teaching English at the secondary stage. Part III concentrates on developing reading and writing skills, identifies 'bad' reading ahbits, describes the essentials of good

handwriting, etc. Part IV considers the importance of teaching prose and poetry in the class and suggests ways to make their teaching/ learning more effective. It also discusses the different types of tests and suggests remedial measures that a teacher can undertake to prevent the mistakes that students commit while using English effectively. Part V discusses different kinds of grammars and the teaching of grammar.

This book provides a first systematic and comprehensive account of English in East and South Asia (EESA) based on current research by scholars in the field. It has several unique features. Firstly, it provides a rigorous theoretical overview that is necessary for the understanding of EESA in relation to the burgeoning works on World Englishes as a discipline. Secondly, in the section on linguistic features, a systematic template was made available to the contributors so that linguistic coverage of the variety/varieties is similar. Thirdly, the vibrancy of the sociolinguistic and pragmatic realities that govern actual English in use in a wide variety of domains such as social media, the Internet and popular culture/music are discussed. Finally, this volume includes an extensive bibliography of works on EESA, thus providing a useful and valuable resource for language researchers, linguists, classroom educators, policymakers and anyone interested in the topic of EESA or World Englishes. This volume hopes to advance understanding of the spread and development of the different sub-varieties reflecting both the political developments and cultural norms in the region.

This text explores ways in which English grammar enables speakers and writers to represent the world, to interact with one another, and to create coherent messages. The hardback edition provides second language teachers with a functional description of English grammar, in which grammar is viewed not as a set of rules but as a communicative resource. It explores ways in which English grammar enables speakers and writers to represent their experience of the world, to interact with one another, and to create coherent messages. Each chapter includes a focus on areas of difficulty for second language learners, numerous authentic examples, tasks that allow the reader to apply the concepts introduced, and discussion questions. A final chapter covers issues in the learning and teaching of grammar, and reviews methodological options for the second or foreign language classroom. Assuming no previous study of linguistics or English grammar, Functional English Grammar is suitable for self-study or as a textbook in teacher education programs.

This volume offers comprehensive 'state-of-the-art' overviews of educational policies concerning the teaching of English in a large number of Asian countries. Each contribution is written by a leading expert and gives a clear assessment of current policies and future trends. Starting with a description of the English education policies in the respective countries, the contributors then

delve into the 'nuts and bolts' of the English education policies and how they play out in practice in the education system, in schools, in the curriculum, and in teaching. Topics covered include the balance between the acquisition of English and the national language, political, cultural, economic and technical factors that strengthen or weaken the learning of English.
